OVERVIEW

Specializing in Python Web development for over the last 2 years with enhancing skills and getting a strong command over Django, Restful APIs, Linux, Cloud-Deployment, and different Databases. Proficient for implementing standard development and deployment practices with robust, secure, and scalable solutions.

PROJECTS

➢ **Zillionstrings**   *(Jun 2023 – Present)*

Technologies: *Django, Django Rest Framework, Linux, PostgreSQL, and DigitalOcean.*
Zillion Strings is tailor-made to fulfil the digital needs of all Indian real estate consultants.
- Designed and developed Lead, Team, Task management, and other features.
- Implemented the deployment, maintenance, and security over the cloud.
- Integration for Payment Gateway and Digital Marketing services.
- Worked with the different domains team.
- Added security, tracking, and standard practices.

➢ **Healthvarsity**   *(Jul 2023 – Aug 2023)*

Technologies: *Django, Django Rest Framework, Linux, PostgreSQL, Agora, and AWS.*
Healthvarsity is a Leading Online Platform providing Accredited Courses from Leading Instructors and Universities across the globe.
- Added Video Chat and Meet recording feature.
- Worked with the team in an Agile environment.
- Fixed, maintained, and upgraded the issues.

➢ **Wowtasks**   *(Jul 2022 – Aug 2023)*

Technologies: *Django, Django Rest Framework, Linux, PostgreSQL, and AWS.*
An online platform to get the user task done on Canada's task marketplace.
- Designed Database Architectures and RESTful APIs.
- Cloud deployment and maintenance.
- Added Admin with advanced functionalities required.
- Integrated OpenAPI tools, and Payment Gateways

➢ **Basepair**   *(Sep 2022 – Oct 2022)*
Technologies: *Django, Django Rest Framework, Linux, Git, GitHub CI/CD, Docker, PostgreSQL, AWS.*
Here I have Migrated APIs from the Testypie framework to the Django Rest Framework.
- Migration for REST Apis from Testypie to DRF
- Engage with the team in an agile development.
- Implementation of standard coding practices.

➢ **Xalts**   *(Jun 2021 – Apr 2022)*
Technologies: *Django, Django Rest Framework, PostgreSQL, Google Cloud.*
This provides a Smart Web and App-based online platform to invest in Crypto-currencies and lets user-investors get the best suggestions from the top user advisors and creators of cryptos.
- Design, Plan, and Develop databases with various algorithms.
- Assisted the team members in achieving developmental milestones.
- Integrated third-party APIs and SDKs.
- Worked and engaged with the Front-end and Blockchain developers.

EXPERIENCE

❖ **Python Developer | Thoughtwin**
- Develop secured RESTFul APIs using Django Rest Framework.
- Wrote well-designed, testable, efficient code using best software development practices.
- Provide training and support to internal teams.
- Continue to improve coding and management skills.

ACHIEVEMENTS

Runner-up position at the Spandan Hackathon with leading a team of 3.   *Mar 2023*
TCSiON – Cognitive Ability Test (73 %)   *Feb 2021*
Certified for Database and RDBMS – Mandsaur University   *Jul 2020*
Abhivyakti - An Expression on Vision- Mandsaur University   *May 2017*

OTHER ACTIVITIES

NDG Linux Essentials (1 month)   *Mar 2023*
AWS Services for Solutions Architect Associate [2022] (11 hours)   *Apr-Oct 2022*
DevOps Fundamentals (2 hours)   *Dec 2021*
Git and GitHub for Beginners – Master Git and GitHub (9.5 hours)   *Oct 2021*

EXTRA-CURRICULAR INTEREST: Chess, Spirituality, Reading.

EDUCATION

Mandsaur University, Mandsaur | Master of Computer Applications (MCA)   *(2022 – 2024)*

SKILLS

Soft Skills: Continuous & Quick learning, Problem-solving, Teamwork & collaboration
Technical Skills: Python, JavaScript, SQL, HTML, CSS, C++, Java, PHP
Frameworks: Django, Flask, and FastAPI
Databases and Engines: SQL, NoSQL, Postgresql, MySQL, SQLite, MongoDB
Others: AWS, Digital Ocean, Git, Linux, Docker, Redis, RabbitMQ, Arduino
